

GDPR

GDPR Policy: No User Data Collection

At 2improveIT, we take the privacy and security of our users' data very seriously. We understand that data privacy is a fundamental human right and we are committed to ensuring that our users' data is protected at all times.

We want to make it clear that we do not collect or use any personal data from our users. We do not track, store, or share any information about our users, including their name, address, email, phone number, or any other personal details.

We use cookies and similar technologies to improve the user experience and to ensure that our website functions properly. However, we do not use cookies to track or identify individual users.

We do not share any user data with third-party providers, and we do not use any user data for marketing or advertising purposes.

We do collect some non-personal data, such as IP addresses and device information, for the purpose of monitoring and improving our website's performance and security. However, this data is anonymized and cannot be used to identify individual users.

We take all necessary measures to protect our users' data from unauthorized access, disclosure, or misuse. Our website is secured with SSL encryption, and we regularly update our security systems to ensure that they are up-to-date and effective.

If you have any questions or concerns about our GDPR policy, please do not hesitate to contact us at info@2improveit.eu.

Thank you for choosing 2improveIT for your application.
