Configure Active Directory FS as your IdP Server

The SP metadata xml can be retrieved using the url of the ADFS Server :

The url of the Adfs was : https://<adfs-server>/FederationMetadata/2007-06/FederationMetadata.xml

Step 1: Goto The AD FS and Click on Add Relying Party Trust

Step 2: Click On the Start Button

Step 3: Open a browser and type the URL https://<applicationUrl>/plugins/servlet/saml/config . This should show the following XML :

Step 4: Copy - Paste the URL

Step 5: Enter the display name
